DRESS CODE FOR STUDENTS

RATIONALE

Enrolment at Yangebup Primary School is confirmation of an agreement by students and their parents that they will follow the dress code. The code has evolved since the school was established as a result of agreements made by parents and teachers. The code is based upon the principles of equity, uniformity, safety, identification and pride.

It is the belief of the school community that the dress code:

- promotes self esteem and the school's motto "Pride and Achievement"
- fosters and enhances the public image of the school
- assists in building school and team spirit
- ensures students are safely dressed for school activities
- encourages equity among students
- identifies Yangebup Primary School students when on an excursion

Expectations

We encourage all students to follow the dress code outlined in this policy. Students will be explicitly taught what is expected of them and parents given this information through the newsletter and the school website.

Non-compliance will result in reminding students of the schools expectations and asking them to remove non-compliant items either that day or the following day. It may result in students being denied the opportunity to participate in special school activities (eg sporting, social, cultural and educational events as determined by the Principal) or holding leadership positions (eg faction captain and parliamentarian).

Students must wear school uniforms on all excursions for safety and identification purposes.
